General Information

Sign Size will be determined by message length and cap letter height, according to NPS UniGuide standards.

Substrate for signs *under 36"* in either dimension is .080" aluminum sheet. Substrate for signs *over 36"* in either dimension is Alumilite™.

Sign Color is white lettering on brown field as determined by NPS UniGuide standards. NPS brown backs are standard on all signs.

Mounting: Price quote will include cost of mounting rails and hardware on signs larger than 36".

Radiused Corners are standard unless otherwise specified.
